

## OVERVIEW

Terraproof is an economical cement waterproofing compound, in fine powder form. It is used to prevent absorption of moisture into the capillaries of cement mortar and concrete and results in a finished surface with high water repellence. It contains no calcium chloride.

## PROPERTIES

Terraproof is based on materials with chemical and physical properties closely aligned with those of cement mortar and concrete and tried and tested waterproofers.

The resulting end product has sound, homogenous, impervious characteristics.

## AREAS OF USE

Terraproof is recommended for use in water tanks, swimming pools and any area where moisture needs to be contained or excluded. It is ideally suited to all external finishing needs and particularly for backing coats of thin layer Terramix plaster

## MIXING INSTRUCTIONS

Terraproof is supplied in powder form and should be mixed thoroughly with the cement before the cement is mixed with aggregate. Terraproof should be mixed with cement in the ratio of 1kg of Terraproof to every 50kg bag of cement.

## HEALTH & SAFETY

Avoid prolonged contact with eyes and skin. For detailed information refer to relevant material safety data sheet.

## PACKAGING & STORAGE

Terraproof is supplied in 1kg packs and 5kg and 20kg bags.

Store containers in a clean dry area protected from direct sunlight and extreme heat and cold. Unopened containers can be stored for 6 months. Use oldest material first.

TERRACO offers a comprehensive range of products and services for most concrete and finishing needs. Please contact the TERRACO Technical Service Department or your local TERRACO agent for further information, samples, demonstrations and instructor services. The information given in this leaflet is based upon laboratory research, as well as extensive field work and application. All products are sold subject to standard conditions of sale which are available on request. This information is based on TERRACO's present state of knowledge and is intended to provide general information on TERRACO's products and their methods of use. The prospective user is recommended to determine the suitability of TERRACO's suggestions and products before adopting them on a commercial scale.

**TECHNICAL DATA**

<b>Product</b>	Terraproof cement waterproofing compound in powder form.
<b>Binder</b>	Hydraulic
<b>Additives</b>	Water repellent agents.
<b>Use</b>	2% by weight on weight of cement.
<b>Packaging</b>	1kg packs, 5kg and 20kg sacks.
<b>Storage</b>	6 months in original unopened containers.
