

# ***Handycoat*** Interior

*Terraco Handycoat - a unique acrylic based filler.*

*Ready mixed and easy to use.*

*Multi-purpose product used for filling, jointing and skimming.*

**A superior product!**

## **Handycoat offers many benefits compared to traditional gypsum based products:**

- Natural finish
- Ready mixed
- Inherent flexibility
- No need for primer or sealer
- No shrinkage
- Vapour permeability
- Higher adhesion
- Two year shelf life!
- EN 1396 standard, Type 1B
- Double the coverage vs traditional joint products
- Quick drying time
- Waterbased
- Environmentally friendly

## **Areas of use. Suitable for all types of old and new substrates:**

- Cementitious
- Gypsum
- Wood
- Skimming walls and ceilings
- Even in bathrooms
- Can be used as part of conventional taping and jointing systems – A two-step taping process
- Repairing damages, cracks or nail holes
- Making good around door and window architraves
- Filling along the top of skirting boards

## **Application**

- Applicable up to 4mm in thickness on skimming applications
- Quick drying – can be over coated in two hours
- Comes in Trade sizes 25kg & 5kg tubs
